Vessel operating expenses are expected to increase by $7,577,514, or 19.8%, in 2027. During 2027, it is expected that the Steamship Authority will use approximately 3,964,000 gallons of vessel fuel oil. Currently, we are expecting the delivered price of fuel, including hedging premiums, to range between $4.01 and $4.58 per gallon compared to a range of $2.79 to $2.97 for the 2026 budget. Fuel expense is expected to be approximately $16,398,000 in 2027, or a 43.0% increase compared to the 2026 budget.

Depreciation and lease amortization expense is expected to increase by 2.3%, or $431,152 with the addition of the new reservation system and supporting equipment and systems.

Overall, maintenance expenses are expected to increase by $903,789 or 2.60%, in 2027. Vessel repair expenses are expected to increase by $1,558,000, or 7.6%, versus the budget for 2026 as dry-docks are scheduled for the M/V Aquinnah, M/V Martha's Vineyard, M/V Monomoy, M/V Sankaty, M/V Woods Hole and M/V Iyanough, 2026 terminal repairs, dolphin and dock repairs will decrease by $863,078, or 14.3%, versus 2026 budget. Computer hardware and software expenses are expected to decrease by $617,000 or 13.5%.

Health care, pension and unemployment cost expenses are expected to increase by $317,000 or 1.4%, versus the 2026 budget and continues to reflect contributions by employees towards their medical plans. Payroll taxes are budgeted to increase by 7.5%, or $331,000 compared to the 2026 budget.

Casualties and insurance expense is expected to decrease by $171,000, or 2.7%.

Overall, payroll expense is anticipated to increase by $4,800,000, or 8.3%.

The projected cost of service for 2027 is based on the approved 2026 Martha's Vineyard and Nantucket operating schedules.

Operating Revenues

The projected operating revenues for 2027 are generally based on actual traffic statistics for the 12-month period ending August 31, 2026. The Authority's traffic statistics over the past few years are as follows:

	2024 Actual	2025 Actual	2026 Budget	2027 Budget
No. of Passengers carried	2,940,965	2,958,355	2,961,671	2,909,282
No. of Automobiles carried	462,431	461,655	462,438	458,187
No. of Trucks carried	211,560	212,787	213,159	210,786
No. of Cars Parked	171,951	170,257	170,685	160,796
No. of Trips	24,079	24,074	24,936	25,020
No. of Miles Traveled	357,442	357,762	375,312	372,376

The projected operating revenues of $161,821,000 in 2026 represent an increase of $1,650,000 or 1.0%, versus the 2026 budget. Automobile revenue is expected to decrease by approximately $23,000 or 0.0%; freight revenue is expected to increase by approximately $1,416,000, or 2.8%; passenger revenue is expected to decrease by $931,000, or 2.3% while parking revenue is expected to decrease by $220,000, or 2.0% and rent revenue is expected to increase by $446,000 or 29.0% versus 2026 budget. Other income

including interest income, grant revenue and license fees is expected to increase by $398,000 or 2.4% versus the 2026 budget.

The Authority's Sinking Fund requirements for 2027 include estimated bond interest payments of $1,581,325 on September 1, 2027; bond interest payments of $1,581,325 on March 1, 2028; and bond principal payments of $11,050,000 due on March 1, 2028.

Based on our estimate of revenues and expenses for 2027, the Authority's net operating income next year is expected to be approximately $573,000.

Attached is a statement of projected net operating income by route for 2027. Based on the cost allocation method, operating revenues and other non-service income would be split 57.5% from the Martha's Vineyard route and 42.5% from the Nantucket route. The allocation of the total cost of service would be split 57.8% to the Martha's Vineyard route and 42.2% to the Nantucket route.

Management conducted Public Information Sessions regarding the 2027 Operating Budget and 2026 Proposed Fare Adjustments in person on Nantucket, Martha's Vineyard and Falmouth between October 26th and October 28th. There were three (3) attendees at the Nantucket session, two (2) at the Falmouth session and approximately twenty (20) attendees at the Martha's Vineyard.

Comments received regarding the 2027 operating budget at the sessions included the projected cost and impact of fuel prices, allowances for unexpected revenue or expense variations, ensuring enough funds are being generated for new vessels and continued use of R-99 fuel for the M/V Island Home. Discussions also took place regarding the new website and reservation system implementation.

Additional changes not factored into the original preliminary budget include increased projected fuel costs since the last Port Council and Board Meeting and additional allowance for unexpected variances in maintenance costs. Since the preliminary budget, estimated fuel prices for time period that is not fully hedged (25% of 2027) are forecasted to increase by approximately $400,000, which represents an 11% increase. Based on the current incremental cost of $0.802 per gallon, The cost of using RD-99 annually for the M/V Island Home is an additional $414,000.

The Port Council at their November meeting voted 7-0-0 to recommend that the 2027 Operating Budget be adopted as proposed and 6-1 for the adoption of RD-99.

RECOMMENDATION:

It is recommended that the attached 2026 Operating Budget be adopted as proposed.

X	Board Members		Information	Subject: Proposed 2027 Rate Adjustments

PURPOSE:

To present and review the staff's preliminary 2027 Rate Adjustments, effective January 1, 2027.

BACKGROUND:

In order to ensure sufficient income to meet next year's cost of service including scheduled debt service payments on September 1, 2027, and March 1, 2028, the staff is proposing rate adjustments that are anticipated to generate an additional $10,800,000 of operating revenue in 2027. The proposed draft of the proposed 2027 Operating Budget does not include the revenue associated with these proposed rate adjustments.

Management is forecasting that passenger, freight and parking travel will be similar in 2027 compared to the traffic for the twelve-month period of September 2025 through August 2026.

Based on an allocation of next year's projected revenues and cost of service, it is proposed that approximately $6,500,000 in additional revenue be raised from adjustments in the Martha's Vineyard rates and an additional $4,300,000 be raised from the Nantucket route. With the proposed distribution of rate adjustments by route, total revenues (and other non-service income) are expected to be split 57.7% for the Martha's Vineyard route and 42.3% for the Nantucket route. By comparison, the cost of service for each route is projected to be 57.8% and 42.2%, respectively.

On the Martha's Vineyard route, management is also proposing adjusting the adult passenger tickets by $0.50, and the children and senior tickets by $0.25. The 10-ride commuter books would be adjusted by $4.50 per book and the 10-ride senior and children books by $2.50. The 46-ride commuter book would be adjusted by $9.25. Bicycle rates would be adjusted by $0.25.

On the Martha's Vineyard route, management is proposing adjusting the one-way standard fare vehicles under 17 feet in overall length by $6.00 for offseason period of January 1st to March 31st, $10.00 in the shoulder season periods of April 1st to May 14th, $10.00 for the period of September 15th to October 31st and $6.00 for the period of November 11th to December 31st. During the peak season of May 15th to September 14th, management is proposing to continue implementing a rate differential for travel on Friday, Saturday and Sunday compared to travelling Monday through Thursday for standard fare vehicles under 20 feet in overall length. The one-way standard fare rate for travel on Monday through Thursday would be adjusted by $10.00, and $18.00 for travel on Friday, Saturday, and Sunday. Vehicles between 17 feet and under 20 feet in overall length would be adjusted similarly.

Management is proposing adjusting the excursion fares by $4.00 per segment for travel between January 1st to March 31st, $4.00 per segment for travel between April 1st to May 31st and September 1st to December 31st and $5.25 per segment for travel between June 1st and August 31st. Included in these adjustments is $1.00, which represents the proposed adult passenger fare increase. Additionally, management is also proposing an 7.5% rate adjustment for all vehicles longer than 20 feet in overall length.

Year-round parking permits for Woods Hole Lot would be adjusted by $200.00. Year-round Palmer Avenue would be adjusted by $50.00 and the seasonal permits by $25.00. Daily fee parking rates will be adjusted by $1.00 for 2027.

On the Nantucket route, with the expected implementation of the new EDEA reservation system, management is proposing replacing the roundtrip fast ferry fares with a year-round pricing model similar to vehicles travelling in the summer. There would be a Monday through Thursday rate and a Friday through Sunday rate. Currently, an adult roundtrip ticket is $46.00 per segment and $48.00 for a one-way ticket. The new pricing model would be $47.50 for travel Monday to Thursday and $50.50 for travel on Friday to Sunday. Children and senior tickets would be priced at $23.75, Monday to Thursday and $25.25 for Friday to Sunday. Same day high speed tickets round trip adult tickets would be adjusted by $3.00 for each direction and same day round trip tickets for seniors would be reduced by $5.50 and children would be adjusted $1.00 in each direction. Management is also proposing that the 10-ride high speed adult tickets be adjusted by $19.00 per book and $11.50 per child book.

Management is also proposing adjusting the conventional ferry adult passenger tickets by $1.00, and the children and senior tickets by $0.50. The 10-ride commuter books would be adjusted by $9.00 per book and the 10-ride senior and children books by $5.50 for the conventional ferries. Bicycle rates would be adjusted by $0.50.

Management is proposing adjusting the one-way standard fare vehicles under 17 feet in overall length by $15.00 for offseason period of January 1st to March 31st, $20.00 in the shoulder season periods of April 1st to May 15th, $25.00 for the period of September 15th to October 31st and $17.00 for the period of November 1st to December 31st. During the peak season of May 15th to September 14th, management is proposing to continue implementing a rate differential for travel on Friday, Saturday and Sunday compared to travelling Monday through Thursday for standard fare vehicles under 20 feet in overall length. The one-way standard fare rate for travel on Monday through Thursday would be adjusted by $25.00, and $30.00 for travel on Friday, Saturday, and Sunday. Vehicles between 17 feet and under 20 feet in overall length would be adjusted similarly.

Management is proposing adjusting the excursion fares by $7.50 per segment for travel between January 1st to March 31st, $8.00 per segment for travel between April 1st to May 31st and September 1st to December 31st and $8.75 per segment for travel between June 1st and August 31st. Included in these adjustments is $2.00, which represents the proposed adult passenger fare increase. Additionally, management is also proposing an 7.5% rate adjustment for all vehicles longer than 20 feet in overall length. Barge rates would be adjusted by 5.0%.

The 6-Ride coupon book prices would also be adjusted by $90.00. Bicycles would be adjusted by $.50 and motorcycles by $3.00 during the off-season and $8.75 during the on-season per segment. Additionally, year-round parking permits for Hyannis would be adjusted by $50.00 and the seasonal permits by $25.00. Daily fee parking rates will be adjusted by $1.00 for 2027.

The above-mentioned proposed rate adjustments would generate an estimated $10,800,000 in additional revenue. Approximately $6,500,000 would be generated from the Martha's Vineyard route and $4,300,000 from the Nantucket route. The proposed adjustments are expected to generate $1,900,000 from passenger fares, $4,400,000 in additional revenue from the standard fare passenger vehicles, $950,000 from excursion fare vehicles, $2,950,000 from vehicles longer than 20 feet in overall length, $500,000 from parking revenue and $100,000 from other sources.

Attached please find a list of the specific rate adjustments being proposed for each route.

The Port Council at their November meeting voted 7-0 to recommend that the 2027 Rate Adjustments be adopted as proposed.
